President TOTAL GLOBAL PROCUREMENT

TOTAL GLOBAL PROCUREMENT

Supplier obtaining a technical qualification status (hereinafter "QUALIFICATION") is based on a preliminary evaluation of Supplier and subject to the following conditions:

1. The QUALIFICATION only applies to:
 - the production site(s) / agency(ies) of Supplier identified in this letter and is in no way valid for any other site / agency or legal entity affiliated to Supplier ;
 - any equipment or service identified in the above table ;
 - the scope and specificities mentioned in the above table.
2. Subject to paragraphs 3 and 4 below, the QUALIFICATION lasts for the specific period of time referred in this Technical Qualification Status form. There is no automatic renewal of this QUALIFICATION.
3. The qualifying entity ("Total") or any member of the Total Group, reserves the right to modify or update at any time one or more criteria that it has retained for the preliminary evaluation of Supplier. This modification may involve the transmittal of new questionnaires and, at the sole discretion of Total or any member of the Total Group, the carrying out of additional evaluation on the Supplier's processes.
4. Total may at any time and at its sole discretion withdraw the QUALIFICATION granted to Supplier with immediate effect. In such case, Total will notify Supplier of its decision to withdraw the QUALIFICATION. Neither Total or nor any member of the Total Group shall be liable to Supplier or any third party for the consequences of such withdrawal.
5. Total does not warrant, undertake or represent that it, or any member of the Total Group, will have any obligation to invite Supplier to submit an offer as part of a call for tender (or any other process) or enter into any agreement with Supplier on the basis that Supplier is a "Total Qualified Supplier" and that the granting of such status shall not be construed or interpreted to imply any obligation on the part of Total or any member of the Total Group. Any award of a contract for the provision of goods and/or services is subject to a written agreement between Total or any member of the Total Group and the relevant Supplier selected for the provision of such goods and/or services. The selection of suppliers invited to tender remains a discretionary right of the legal entity proceeding with such tender.
6. The QUALIFICATION does not grant Supplier any rights vis-à-vis Total or any member of the Total Group, and Supplier accepts that neither Total nor any member of the Total Group shall have any liability under contract, tort or otherwise at law arising out of or in any way related to the QUALIFICATION.
7. The QUALIFICATION is not to be construed as a recommendation to use any information, product, process, equipment, or formulation that would cause Total or any member of the Total Group to be in breach of any patent, copyright, trade secret or trademark, and Supplier, if and when invited to a tender, shall be required to provide all appropriate representations and warranties that any use of information, products, equipment and/or services in relation to such call for bids will not infringe on any patent, copyright, trade secret or trademark.
8. The QUALIFICATION does not grant any license or right to any person in respect of any intellectual property rights and trade secrets proprietary to Total or any member of the Total Group or its and their contractors. Supplier shall not use, or make reference to, the business names, trademarks or logos of Total or any member of the Total Group, without the prior written consent of the relevant Total entities.
9. This letter shall automatically be terminated if a new letter in respect of Supplier's QUALIFICATION is issued subsequently by Total.
